**Commitment Control Inquiry - Budgets Overview
Job Aid**

Questions on this Job Aid should be directed to Mary Alice Mills, Corbin deNagy, or Kyle DeRouin

Purpose

Budget, Expense, Encumbrance, and Available Budget Balance figures can be found in OMNI Financials by performing a Commitment Control inquiry. Balances found on the Commitment Control screens reflect current OMNI activity.

There are two types of inquiries available: Budget Details, which can be used to view a single department-fund-account combination, and Budgets Overview, which can be used to view a range of departments, funds, and/or accounts. This job aid covers the Budgets Overview inquiry only. See the “Commitment Control Inquiry - Budget Details” job aid to learn more about the Budget Details inquiry.

Note: There is no need to create a new value each time you want to access the Budgets Overview screen. After a new value has been added, you can access it by searching for it on the “Find an Existing Value” tab. However, you may find it helpful to set up several inquiries for search criteria that you use on a regular basis.

Note: Some processes run by the University while closing a fiscal year (such as rolling PO's) may change figures on the Commitment Control Budgets Overview screen. For this reason, you should rely on figures for the current fiscal year only.

Official versions of the Available Balance report are generated as of the end of each fiscal year and archived. These official archived reports can be accessed by selecting "Year End Reports" from the Dashboard > Financial Reports in OBI. For more information on this, see the "OBI Available Balance Report" job aid.
